Hair Thickness Chart

Hair Thickness Chart

Description

- Hair thickness for styling, relates to both thickness of a hair strand and the amount of Hairs growing from the scalp. This combination adds to the amount of time it takes to achieve a Desired Style.
- Knowing your Hair Density, also helps you order the correct amount of Hair Extensions required for your Desired Hairstyle.
- Telling me your Hair Density, tells me if you will need to order Hair Extensions to achieve your Desired Hairstyle and, which weight or how many to order.
- Many Beautiful Down Styles, Half Up Half Down Styles and UpStyles, require a lot of Hair to achieve the look, either in thickness or in length. Down and Half up Half Down Styles, require both.

Hair Density

Hair density requires a simple mirror test. Grab a large handful of hair and pull it to the side.

Thin Hair

You have thin hair density, if you can easily see your scalp,

Medium Hair

Your Hair is medium density, if you can partially see your scalp under your hair.

Thick Hair

You have thick density, if you can hardly see your scalp.

Hair Thickness - The Ponytail Test

Another way of testing your hair thickness, and the way all Hairstylists, subconsciously relate to, is by holding the hair together and feeling the amount of Hair we need to treat to achieve the desired Hairstyle.

The Ponytail Test is a great way to communicate the thickness of your hair when I'm not there with you, to feel it for myself, to measure it.

Tie your Hair into a ponytail and measure its circumference.

- Hair of 3 or more inches, indicates you have high-density hair.

In other words, thick hair.

- 3" - 4" = €50 4" - 5" = €75 6" = €100
- 7" = €125 8" = €150 9+ " = €200

Hair Extensions -Thickness

Hair Extensions, add thickness as well as length. Some Hairstyles require extra thickness as well as extra length to your own Hair. Normally, **Soft to Full Glam, Full Glam and Glam Bespoke Hairstyles** require **4-8 inches (" = inches)** in a ponytail. The thickness of Hair Extensions, are measured by their Weight
